Student performance

Please comment, as appropriate, on:

2.1 Students' performance in relation to those at a similar stage on comparable courses in other institutions, where this is known to you

Student performance would appear to be on a par with previous years.

COURSE DIRECTOR: Dr Sarah Channon

Course Director Response:

We agree, and in the circumstances this is reassuring.

Assessment Procedures

3.6 Opinion on changes to the assessment procedures from previous years in which you have examined

The effects of the COVID-19 restrictions have been far-reaching. The RVC team have produced excellent adaptations to these trying times to ensure a fair assessment of the students.

COURSE DIRECTOR: Dr Sarah Channon

Course Director Response:

Thankyou, this has been a big team effort, and the efforts of our externals in helping us deliver the assessments are very gratefully received.

If you have identified any areas of good practice, please comment more fully here. We may use information provided in our annual external examining report:

5.1 Do you have any suggestions for improvements based on experience at other institutes? We may use information provided in our annual external examining report:

At the University of Glasgow, a similar formative assessment exam procedure was adopted for 2nd (and 1st) year students with all progressing to the next year of the programme. At the University of Nottingham veterinary school, the online assessments were completed in an open-book scenario. Mean marks were higher as expected but the assessments were deemed to be a fair judge of students' knowledge. There are variations across the UK based Vet Schools and it would be ideal if the experience of the different institutes so that positive and negative lessons can be shared in the near future.
