

**PROGRAMME SPECIFICATION: BSc/MSci Bioveterinary Sciences
Applies to Cohort Commencing 2018**

1. Awarding institution	The Royal Veterinary College
2. Teaching institution	The Royal Veterinary College (University of London)
3. Programme accredited by	
4. Final award	Bachelor of Science / Master in Science
5.	Bioveterinary Sciences
6. Date of First Intake	2002 for BSc, 2014 for transfer from BSc Bioveterinary Sciences to MSci year 4 2015 for MSci Bioveterinary Sciences
7. Frequency of Intake	Annually in September
8. Duration and Mode(s) of Study	Three or four years full-time
9. Timing of Examination Board meetings	Annually in July
10. Date of Last Periodic Review	2014

MSci Bioveterinary Sciences

To offer a high quality course incorporating extensive research experience, in which students are challenged by, and stimu

At the time of graduation students should, to a standard appropriate for a new master in science graduate, be able to:

- A. Demonstrate knowledge and understanding of:
 - 1. Specialised terminology which underpins an individual discipline or subject area.
 - 2. Cognate sciences.
 - 3. The political, social and economic context of the applications of science.

- B. Display the following cognitive (thinking) skills: The ability to:
 - 1. Access information and skills as required by a task.
 - 2. Make methodical observations on the normal and abnormal functioning of biological systems.
 - 3. Discriminate between important and relatively unimportant information and observations.
 - 4. Reflect on information and observations, and solve problems.
 - 5. Discuss uncertainty in relation to scientific “facts”, and balance different schools of thought.

- C. Display the following practical skills including the ability to:
 - 1. Design and execute experiments, and to analyse and interpret the resultant data.
