

1. Applies to cohort commencing in:	2020
2. Degree Granting Body	Univ Ldn
3. Awarding institution	The Royal Veterinary College
4. Teaching institution	The Royal Veterinary College
5. Programme accredited by	Royal Society of Biology (Advanced Accreditation)
6. Name and title	Master in Science in Applied Biological Research (MSci)
7. Intermediate and Subsidiary Award (s)	CetHE, DipHE
8. Course Management Team	Co-Director: Dr. Chab Lap Year1 Leader: Dr. David Pabry Year2 Leader: Dr. Abir Majeed; Year3 Leader: Dr. Badly Cbb Year4 Leader: Dr. Chab Lap
9. FHEQ Level of Final Award	Level 7 See http://www.ac.uk/Pblcat/Qualifications-factsheet
10. Date of First Intake	2002 for BSc, 2014 for MSc Biological Sciences year 4 m

The placenta is attached to the uterine wall and is the source of blood supply to the fetus. The placenta is a vital organ and is responsible for the exchange of nutrients and waste between the mother and the fetus. The placenta is attached to the uterus by the umbilical cord. The placenta is a vital organ and is responsible for the exchange of nutrients and waste between the mother and the fetus. The placenta is attached to the uterus by the umbilical cord. The placenta is a vital organ and is responsible for the exchange of nutrients and waste between the mother and the fetus. The placenta is attached to the uterus by the umbilical cord.

19. UCAS code

<ul style="list-style-type: none"> Have a detailed understanding of the basic facts & credible diseases and appreciate the broader public health implications. 	Year 2 class
<ul style="list-style-type: none"> Develop critical thinking skills, including the ability to identify strengths and weaknesses of evidence, and present a variety of views. 	Year 2 Research Project
<ul style="list-style-type: none"> Have developed the ability to access and interpret ethical research and understand the relationship between clinical research and public health. Understand the ethical factors that influence research design and have different thoughts. 	Year 3 Research Project
<ul style="list-style-type: none"> Developed detailed knowledge of the health care system and its impact on public health. 	Thesis/ Dissertation
<ul style="list-style-type: none"> Developed the ability to work in a team, manage a project, and effectively communicate, including digital literacy. 	Assessment of research projects and thesis

- Active involvement in the health care system.

- Maintain high ethical standards in research and practice. (p. 10)

28 . Programme structures and requirements, Level s, modul es, credits and awards

NB: The College will endeavour to provide a programme that has been designed to meet the needs of the community. However, the College will not be held responsible for any changes to the programme structure or requirements.

	Module Title	FHEQ Level	Credits	Completion
Year1, Term1	Biological Cell	4	15	Comp
Year1, Term1	Inheritance, Genes and Evolution	4	15	Comp
Year1 , Term1	Developmental Biology	4	15	Comp
Year1 , Term2	The Mammalian Brain	4	15	Comp
Year1 , Term2	Integrated Physiology 1	4	15	Comp
Year1 , Term2	Integrated Physiology 2	4	15	Comp
Year1 , Term3	Professional Development	4	15	Comp
Year1 , Term3	Project	4	15	Comp

Year2 , Term1 Basis1

Year3, Term	Advanced Spatial Pathways	6	15	Opt
