

<b>1. Applies to cohort commencing in:</b>	N/A (published for 2022/23)
<b>2. Degree Granting Body</b>	None

- The aim of the qualification is to provide a modular route to a recognised level of attainment for practising veterinary surgeons, so that they may perform as competent independent practitioners, delivering a consistently high standard of practice to their clients.
- The framework also aims to provide a structure for continuing professional development and lifelong learning.

**24. Overall Programme Level Learning Outcomes - the programme offers opportunities for students to achieve and demonstrate the following learning outcomes. Learning outcomes should be specified for all intermediate awards as well as for the terminal award.**

On successful completion of the Certificate of Advanced Veterinary Practice, students will need to demonstrate:

- a thorough understanding of the knowledge base and a critical awareness of developments at the forefront of their area of professional practice;
- a comprehensive understanding of techniques applicable to their own area of practice;
- originality in the application of their knowledge and skills to the solution of problems in their area of practice.
